### Hulk Earth Anchors – H110

**Type:** Impact Driven Soil Anchor for tensile loads.

**Dimensions:** Width: 110mm  
Height: 63mm  
Length: 160mm

**Weight:** 0.990kg

**Material:** Ductile Iron

**Mechanical Properties:** Ultimate Strength: 55kN  
Yield Strength: 35kN  
Note: Holding capacities are tendon and soil dependant

**Soil Bearing Surface Area:** 126.6cm<sup>2</sup>

**Typical Installation Depth:** 1m to 2.5m
