Hulk Earth Anchors - HG100

Type: Impact Driven Soil Anchor for tensile loads.

Dimensions: Width: 100mm
Height: 105mm
Length: 341mm

Weight: 5.25Kg

Material: Ductile Iron

Mechanical Properties: Ultimate Strength: 280kN
Yield Strength: 175kN

Note: Holding capacities are tendon and soil dependant

Soil Bearing Surface Area: 298.96cm²

Typical Installation Depth: 2.1m to 9m
