Hulk Earth Anchors - HG180

Type: Impact Driven Soil Anchor for tensile loads.

Dimensions: Width: 180mm
Height: 105mm
Length: 341mm

Weight: 6.4Kg

Material: Ductile Iron

Mechanical Properties: Ultimate Strength: 280kN
Yield Strength: 175kN

Note: Holding capacities are tendon and soil dependant

Soil Bearing Surface Area: 487.76cm²

Typical Installation Depth: 2.1m to 9m
