Hulk Earth Anchors – HG320

Type: Impact Driven Soil Anchor for tensile loads.

Dimensions: Width: 320mm
Height: 111mm
Length: 444mm

Weight: 11.3Kg

Material: Ductile Iron

Mechanical Properties: Ultimate Strength: 280kN
Yield Strength: 175kN

Note: Holding capacities are tendon and soil dependant

Soil Bearing Surface Area: 1034.54cm²

Typical Installation Depth: 2.1m to 9m
