Hulk Earth Anchors – HP25

Type: Impact Driven Soil Anchor for tensile loads.

Dimensions: Width: 25mm
Height: 25mm
Length: 85mm

Weight: 0.017kg

Material: Glass Reinforced Nylon

Mechanical Properties: Tensile Strength: 5kN
Note: Holding capacities are tendon and soil dependant

Soil Bearing Surface Area: 18.42cm²

Typical Installation Depth: 0.6m to 1.2m
